## ERRATA

Except for those in the last three lines of the table, the values appearing in all tables entitled "Personal Income by Major Sources and Total Labor and Proprietors Income by Type and Industry" are in thousands of current-year dollars. The values in the last three lines in these tables are in the units indicated for them.

The values that appear in the tables entitled "Projected M-X-related Land Requirements for Solid Waste Disposal" are in acres.

The incorrectly labeled tables to which this errata sheet applies are:

Table No.	Table Title	Page No.
2.D.2.1.A.	Personal Income by Major Sources and Total Labor and Proprietors Income by Type and Industry	39
2.D.2.1.B.	Personal Income by Major Sources and Total Labor and Proprietors Income by Type and Industry	40
2.D.2.1.C.	Personal Income by Major Sources and Total Labor and Proprietors Income by Type and Industry	41
2.D.10.1	Projected M-X-related Land Requirements for Solid Waste Disposal in Eureka County, Nev.	126
2.D.10.2	Projected M-X-related Land Requirements for Solid Waste Disposal in Eureka County, Nev.	128

**REVIEW COPY OF WORK IN PROGRESS**

**2 October 1981**

DEPARTMENT OF THE AIR FORCE  
WASHINGTON 20330

OFFICE OF THE ASSISTANT SECRETARY

**Federal, State and Local Agencies**

On October 2, 1981, the President announced his decision to complete production of the M-X missile, but cancelled the M-X Multiple Protective Shelter (MPS) basing system. The Air Force was, at the time of these decisions, working to prepare a Final Environmental Impact Statement (FEIS) for the MPS site selection process. These efforts have been terminated and the Air Force no longer intends to file a FEIS for the MPS system. However, the attached preliminary FEIS captures the environmental data and analysis in the document that was nearing completion when the President decided to deploy the system in a different manner.

The preliminary FEIS and associated technical reports represent an intensive effort at resource planning and development that may be of significant value to state and local agencies involved in future planning efforts in the study area. Therefore, in response to requests for environmental technical data from the Congress, federal agencies and the states involved, we have published limited copies of the document for their use. Other interested parties may obtain copies by contacting:

National Technical Information Service  
United States Department of Commerce  
5285 Port Royal Road  
Springfield, Virginia 22161  
Telephone: (703) 487-4650

Sincerely,

A handwritten signature in black ink, appearing to read "James F. Boatright".  
JAMES F. BOATRIGHT  
Deputy Assistant Secretary  
of the Air Force (Installations)

1 Attachment  
Preliminary FEIS

2.D.9.4 Projected M-X-related requirements for fire protection personnel in Eureka County, Nevada (high baseline)	124
2.D.10.1 Projected M-X-related land requirements for solid waste disposal in Eureka County, Nevada (trend baseline)	126
2.D.10.2 Projected M-X-related land requirements for solid waste disposal in Eureka County, Nevada (high baseline)	128
2.D.11.1 Cumulative M-X-related land requirements (acres) for parks and playgrounds in Eureka County, Nevada (trend baseline)	130
2.D.11.2 Cumulative M-X-related land requirements (acres) for parks and playgrounds in Eureka County, Nevada (high baseline)	132

## INTRODUCTION

The detailed socioeconomic impacts reported in this volume form background information for the analysis contained in the M-X Deployment Area Selection and Land Withdrawal/Acquisition Environmental Impact Statement (FEIS) and its associated Environmental Technical Reports (ETRs). The data tables presented here provide projections of the key socioeconomic impacts of M-X deployment for all alternatives that affect this region. The impacts considered in this report relate to the following areas:

- o employment and labor force,
- o earnings,
- o population,
- o housing,
- o education,
- o public health and safety services, and
- o land use.

The significance and implications of these projections are discussed in the FEIS and other ETRs. The methods used to estimate the impacts reported here are discussed in the following ETRs:

- o M-X Environmental Technical Report: Economic Model (ETR-27); and
- o M-X Environmental Technical Report: Community Services and Infrastructure Model (ETR-28). ↗

Many of the tables contained in this volume relate either to a trend (low-growth) baseline or to a high-growth baseline. Unless otherwise noted in the table title, the low-growth baseline assumptions are indicated by an "L" in parentheses following the name of the alternative: for example, "Proposed Action: Full Deployment--Nevada/Utah (L)." Without such a notation, the table relates to a high-growth baseline scenario.
